Securing Oracle ERP knowledge a challenge, invitee?

Opus by Epilogue Systems – the leading digital adoption platform (DAP) automatically creates customizable documentation, training manuals, simulations, assessments and live in-application walkthroughs. Fully cloud-based, target application agnostic, and with a zero-learning curve for subject matter experts, Opus supports your end users with all pre- and post-go-live assets needed to ensure target application (Oracle, Custom, etc.) adoption.

Additionally, Opus is the only solution in the market to convert Oracle User Productivity Kit (UPK) at the ODARC level in bulk. All the content, embedded assets, links, etc., that reside in UPK is migrated in minutes and can be consumed by end users instantly, with no loss in business continuity.

Date? 16 November 2023 from **16.00 - 17.00 PM.**

Speakers: Lenno P. van Kleef – **Apps & Us** and Barry Smith – **Epilogue Systems**

[I attend](#)

For who?

Employees and managers of organizations using Oracle eBusiness Suite and Oracle Fusion, regardless of industry.
